

Lifting North Carolina's Black & Brown True Majority

NNCP exists to lift Black and Brown people. We work to **help communities of color claim their power** through economic mobility, housing security, public safety and civic engagement. We speak for the #TrueMajority.

People of Color need proof that democracy can work for them. The Four Pillars reflect their priorities, and we work on the ground with partners statewide to deliver tangible results. As trusted grassroots messengers, we can connect the issues to co-governance, helping create lasting and systemic change to traditionally underserved and marginalized communities.
